DETAILED ACTION

Claims 11, 12, 14, 15, 21, 22, 24, and 25 are pending. Claims 11 and 21 have been amended in this communication filed 1/28/08 entered as Response to Non-Final Rejection and Request for Extension of Time.

The claim objections for claims 11, 21, and 24 have been overcome by Applicants' amendments and convincing explanation of the claims and are hereby withdrawn.

The 35 USC 112, second paragraph rejections for claims 12, 21, and 22 and dependent claims 14, 15, 24, and 25 have been overcome by Applicants' amendments and convincing explanation of the claims and are hereby withdrawn.

EX Parte Quayle

This application is in condition for allowance except for the following formal remaining matter:

The Specification needs to be amended to remove the Attorney Docket numbers and replace them with the application number or patent number if the application has been patented and to state whether the application is still pending.

The withdrawn claims 16-20 would need to be amended prior to being included in the allowed claims because the preamble crosses to statutory classes of invention. The preamble recites "The apparatus of claim ..." and the claim depends from a method claim. The preamble should recited "The method of claim ...". Also, the "means for" in claims 18-20 needs to be deleted because "means for" is only found in system or apparatus claim limitations.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
